- › User-friendly, quick assembly

the TRIGA® MAX system **EXPLAINED**

Design and build ultra sturdy towers, counters, totems, walls or even complete exhibition stands, and more with the TRIGA® Max system. The basic parts all simply interlock (depending on the configuration) to assemble the structure on which seamless fabric graphics are tensioned using the unique TRIGA® tensioning device, resulting in a wrinkle-free finish.

FIVE BASIC COMPONENTS

Endless possibilities

UPRIGHTS

are divided sections (bottom uprights and top uprights) that can be connected.

Crossbars can be connected to the upright poles at 45° angles.

CROSSBARS

connect the uprights and hold the tensioners.

FEET

hold up the upright poles and creates vertical support

TENSIONERS

are spring loaded and apply vertical tension to the fabric print when released.

GRAPHIC RAILS

to hold the fabric print in place.

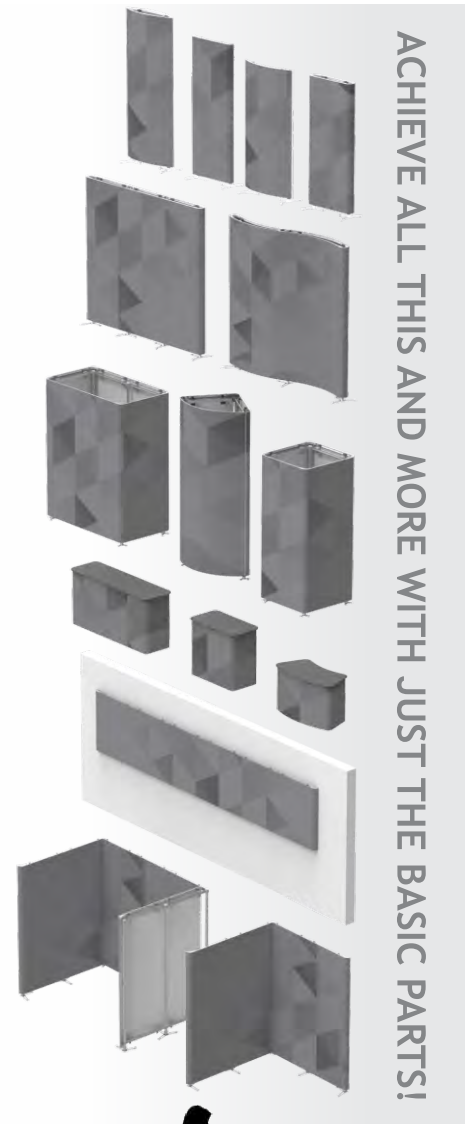

Mix-and-Match

the standard system components in different configurations to create ever changing displays without breaking your budget or investing in a new system. A range of accessories also available.

Suitable for single or double sided display graphics.

THE BENEFITS OF CHOOSING A TRIGA® SYSTEM

MODULAR & VERSATILE
Allows for near endless, creative possibilities.

TIME-SAVING
Quick set-up. No installation team required.

TOOL-LESS
No tools required for setup or breakdown.

SUSTAINABLE
Reusable and all major components fully recyclable.

SCALABLE
Keep your display current - Add components to grow.

STURDY & DURABLE
Hard-wearing materials with a "wobble-free" design.

LIGHTWEIGHT
Save on shipping costs. Low weight makes it highly portable.

WRINKLE-FREE FINISH
Seamless, evenly tensioned fabric prints with no creases.
